RE: DOGM Permit Amendment Application
Sunnyside Cogeneration Associates
Star Point Waste Fuel C/077/042

Ms. Grubaugh-Littig:

Please find enclosed four copies of SCA's permit amendment application for the Star Point Waste Fuel property, Permit Number C/007/042.

This amendment addresses some administrative adjustments regarding MSHA classification, and adjustments in directors and officers in the parent companies to Sunnyside Cogeneration Associates.

But the main changes submitted with this amendment application are the removal of several culverts along the north side of the main permit area, along County Road 290. The culverts being removed include the following: 16B, 16C, 16D, 16E, 16Ea and the drop culvert at the north end of ditch 32. These culverts provided several access points onto the permit area for the former permit operator. These accesses are not required for the SCA operations and we feel that removing these culverts and extending the grouted drainage diversion ditches through the culvert areas will more efficiently control storm waters.

Should you have any questions, please contact Rusty Netz or me at (435) 888-4476.

Sincerely,

Agent For
Sunnyside Cogeneration Associates

Randy J. Scott / r.n.
